

Turn your curiosity into impact through citizen science.

What is citizen science?

Citizen science connects scientists and everyday people to help accelerate research and discovery, from astronomy to zoology. SciStarter.org matches you with the right project based on your interests, location, and skills. You can make an impact!

Learn how your participation can lead to new discoveries.
SciStarter.org/NLM

Citizen Science Month is presented by SciStarter and ASU with support from the National Library of Medicine.

FEATURED CITIZEN SCIENCE PROJECTS:

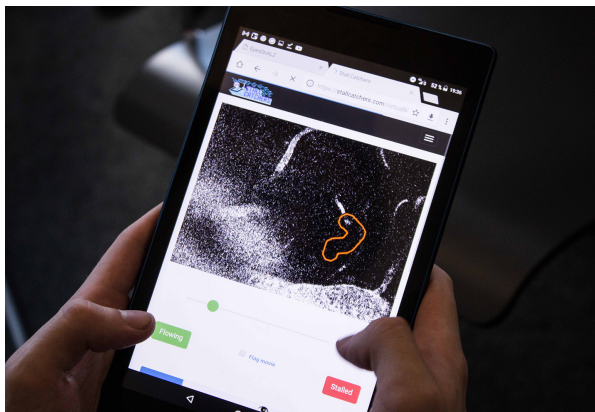

Flu Near You

Help scientists predict flu outbreaks by sharing your symptoms online.

Globe at Night

Measure light pollution—which affects wildlife patterns and even human health—while stargazing.

Stall Catchers

Play an online game that can help speed up Alzheimer's research.

Rich Blenkinsopp, Memorial University

Debris Tracker

Use an app to report and categorize litter near you and help protect waterways and coastlines.

ISeeChange

Investigate how local weather and climate change are impacting your community and the world.

Crowd the Tap

Join the first national survey of water pipe materials to help ensure safe drinking water for all.

Find these and other projects that match your interests.
